Sublimation Ink

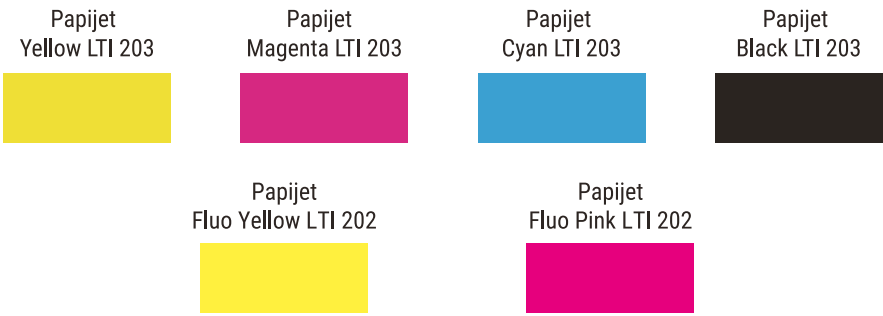

The next generation of sublimation ink

Kyung-In Synthetic Corporation (KISCO) is the biggest dyestuff manufacturer in Korea. With decades of technical know-how and experience of colorants, KISCO develops and produces inks for digital textile printing to meet increasing market demands. We supply high quality and environmentally friendly products to meet the requirements of customers from around the world.

To print on polyester fabrics without steaming and washing, sublimation printing, also known as transfer printing, is the solution. You firstly print the image onto sublimation paper using Papijet LTI 203/Fluo LTI 202 inks and then transfer the image from paper to the polyester fabric. Papijet LTI 203/Fluo LTI 202 is a water-based, disperse, eco-friendly ink for digital direct and sublimation printing with the highest transfer yield using a standard concentration ink. Papijet LTI 203/Fluo LTI 202 shows excellent transferability especially on coated paper and exhibits higher color strength than other sublimation inks. It also delivers bright shades with good fastness properties.

Shades

Applications : Polyester and its blends for sportswear, swimwear, flags and banners

Fastness Properties

On Polyester

	Washing	Rubbing	Perspiration	Water	Light (Blue Scale)
	ISO 105 C06:2010	ISO 105 X12:2016	ISO 105 E04:2013	ISO 105 E01:2013	ISO 105 B02:2014
Cyan LTI 203	4-5	4-5	4-5	4-5	5
Magenta LTI 203	4-5	4-5	4-5	4-5	6
Yellow LTI 203	4-5	4-5	4-5	4-5	Over 7
Black LTI 203	4-5	4-5	4-5	4-5	4
Fluo Yellow LTI 202	4-5	4-5	4-5	4-5	Over 4
Fluo Pink LTI 202	4-5	4-5	4-5	4-5	3-4

* Blue Scale Standard is based on the 7-step scale of 1 to 7, where 1 is bad and 7 is good.

The following data represents results of internal test performed with the specified ink and fabric.
Results in actual end use may vary depending on the particular conditions of use.
